

How To Guide — RealPlayer SP

Download video to Blackberry device:

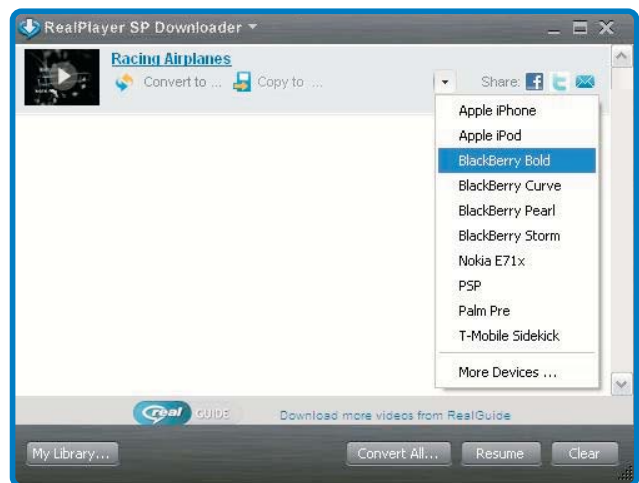

1. After downloading RealPlayer SP, go to UGC site to download video.
2. Find video on page, start watching it and click "Download This Video" in upper right hand of screen (for quicker downloading and transferring times, select shorter videos).

Transfer video to Blackberry device:

Make sure your blackberry is set to STP - your computer needs to be able to recognize it as a storage device.

1. Connect your Blackberry device to your PC.
2. After video download completes, click "Copy to Blackberry Bold" from the drop down menu in download manager.
3. Converter will launch, and transfer will happen after conversion.
4. Disconnect Blackberry and play video on device.

Update Twitter feed:

1. While video is downloading, click Twitter icon on download manager.
2. Log into your Twitter account, and post the video for followers to watch.

To share video through your Facebook profile, take the same steps as for Twitter but instead click on the Facebook button in the download manager.
